

The Big Tent

2026 International Higher Education Conferences

International education encompasses student recruitment, education abroad, institutional partnerships, leadership and strategy, policy, and professional development. Together, these areas form a “big tent” of interconnected work across higher education. This overview highlights key international education conferences and convenings scheduled for 2026, providing a practical planning resource to help institutions, organizations, and professionals identify opportunities to connect, learn, and advance their internationalization goals.
